## . ˚ Activity 1: "Build a Personal Navigation Bar"

**Goal:** Create a navigation menu linking to 3 major sites you use (school portal, research site, study resource).
➤ Students will practice structuring links and using **target="_blank"** so links open in a new tab.

**Steps:**

1. Create a header

2. Add 3 clickable links using **<a>** tags.

3. Include **target="_blank"** so they open in a new tab.

## . ˚ Activity 2: "Anchor Jump Adventure"

**Goal:** Make a one-page adventure page that jumps to sections using in-page links.
➤ Students create internal page navigation (e.g., Text → Pictures → Fun Facts).

**Steps:**

1. Create 3 sections with IDs like **#intro, #gallery, #fun.**

2. Create links at top that jump to each section with **href="#sectionID"**.
